

## The Faculty

**Professor Daniel Gall** is Professor of Materials Science and Engineering department in the Rensselaer Polytechnic Institute, Department of Materials Science and Engineering, USA. He has published 120 research journals and several books on nano structure fabrication. His expertise is on glancing angle deposition technique for the fabrication of Sculptured thin films: nanorods, nanopipes, nanosmiles. He got several awards and positions in different institutes and organizations. He received IBM Faculty Award for research on "Post-CMOS Nanoelectronics." In 2008.

**Dr. Aniruddha Mondal** is an Assistant Professor of Physics department NIT Durgapur. His research interest is Fabrication of III-V, III-N semiconductor material, 1d metal oxide semiconductor nanostructure using glancing angle deposition technique and fabrication of UV-Vis detector, plasmonic detector, hybrid semiconductor detectors.

**Dr. Soumen Basu** is an Assistant Professor of Physics department NIT Durgapur. His research interest is Nanostructured materials, Multiferroics materials, Rare earth orthoferrites, Multiferroic polymer nanocomposites, Ferrite based gas sensing materials, Rare earth doped Bismuth ferrite, Graphene based materials, Rare earth chromate for SOFC.

## Course Co-ordinator:

**Dr. Aniruddha Mondal**  
Principal Coordinator,  
Department of Physics  
National Institute of  
Technology, Durgapur  
West Bengal - 713209  
Tel: +91 343275477 (O)  
+91 9434789024 (M)  
Email:  
[aniruddham@gmail.com](mailto:aniruddham@gmail.com)

**Dr. Soumen Basu**  
Co-Coordinator,  
Department of Physics  
National Institute of  
Technology, Durgapur  
West Bengal - 713209  
Tel: +91 343275477 (O)  
+91 9434788198(M)  
Email:
